

What is a pylontech lithium battery?

Pylontech's lithium batteries were some of the first modular batteries to be offered in the ESS market in an enclosure holding both the lithium cells and battery management/control system in a simple rack-mounted unit.

Is Pylontech a solar battery brand?

Pylontech is currently listed as a SolarQuotes approved battery brand on our solar battery comparison table. We have estimated pricing and specification details of Pylontech batteries.

Who can install a Pylontech battery?

If you are a UK home or business owner looking to install a Pylontech battery, our green team can help. Call us on 01322 479369 or enquire now. Pylontech's range of solar batteries offers flexible storage solutions, with the US2000 and US3000 being popular choices for both our installers and customers.

What is a PylonTech battery bracket?

The Pylontech US3000C Battery Brackets (pair) are a genuine mounting system made by Pylontech for their US3000 batteries. They are included in the package and help keep multiple batteries in one pile, making installation easy.

Are pylontech batteries any good?

I am very happy with the Pylontechs - no issues at all in just over 2 years. The batteries are well engineered and (despite the evidence-free concerns raised by some) have really good BMS hardware and software. My only issue is the annoying "stuck-at-89% SOC" feature.

What does pylontech's residential battery look like?

Pylontech's residential offering are rack-mounted lithium-ion solar batteries housed in a cabinet that looks a little like a bar fridge. Sale! Sale! Sale!
