

Who makes pylontech batteries?

The makers of Pylontech batteries, Pylontech Technologies Limited is a Chinese company that was founded in 2009 as a dedicated energy systems provider. With over 4.5 GWh of batteries installed since, Pylontech is a world leader in the production of both low and high voltage lithium iron phosphate batteries.

What is a pylontech lithium battery?

Pylontech's lithium batteries were some of the first modular batteries to be offered in the ESS market in an enclosure holding both the lithium cells and battery management/control system in a simple rack-mounted unit.

Can pylontech batteries be installed indoors?

The battery modules should only be installed indoors with an IP rating of 20. All of the battery modules feature a depth of discharge of 95%. There are a number of features of the Pylontech battery worth mentioning: The Pylontech US2000B battery is designed to be compact and portable. The US2000B dimensions are 440*410*89 mm (W x H x D).

Which pylontech batteries are available in Australia?

Pylontech has 2 series of batteries that have been approved by the Clean Energy Council for sale in Australia - the US series and the Powercube series. Pylontech's flagship battery product is the US2000C, a module featuring a nominal capacity of 2.4 kWh and a usable capacity of 2.16 kWh.

Are pylontech batteries vertically integrated?

Pylontech branded batteries are vertically-integrated meaning that the company is in charge of all stages, from design to construction, down to the smallest detail and does not outsource any of the process. Pylontech's LFP batteries are made with lithium iron phosphate (LiFePO₄ or LFP) battery cells.

What is a pylontech up5000 battery?

Sale! The Pylontech UP5000 lithium battery is a mid-range 48V battery that is ideal for daily cycling applications with a lifetime of over 4,500 cycles at a 95% depth of discharge. This battery also suits larger domestic applications as you can parallel up to 16 units for up to 72.96 kWh of high-performance energy storage.
