

Where did pylontech obtain the world's first sodium ion battery certificate?

Pylontech obtains the world's first sodium ion battery certificate from TÜV Rheinland. Pylontech (Stock No. 688063) obtained the world's first sodium ion battery certificate granted by TÜV Rheinland, which is based on UL1973:2022, IEC62619:2022, IEC62660-2:2018, and IEC62660-3:2022.

How pylontech will drive the application of sodium ion battery?

Benefiting from the rich experience in energy storage of lithium battery, Pylontech will drive the application of sodium ion battery in the field of energy storage with its technological innovation and bring more value to the users. Geoffrey Song VP of international business of the ESS giant, said:

What is the world's first sodium ion battery certificate?

Pylontech obtained the world's first sodium ion battery certificate granted by TÜV Rheinland on March 3, 2023, which is based on UL1973:2022, IEC62619:2022, IEC62660-2:2018, and IEC62660-3:2022. This certificate marks Pylontech's advancement and maturity in sodium ion battery technology, which paves the way for its application in energy storage.

Is pylontech a safe ion battery company?

Geoffrey Song, VP of international business of the ESS giant, said: Being the first company to get international safety standards of sodium ion battery surely reinforces Pylontech's all along positioning -- A Dedicated Energy Storage System Provider with comprehensive research development and manufacturing capabilities.

What is a pylontech lithium battery?

Pylontech's lithium battery US3000C is the latest technology frontier for photovoltaic storage applications. The simplicity and modularity of the US3000C with 3.5kWh capacity makes it suitable for small and large accumulation systems and expandable according to current and future energy needs.

What is pylontech?

Benefiting from the rich experience in energy storage of lithium battery, Pylontech will drive the application of sodium ion battery in the field of energy storage with its technological innovation and bring more value to the users. Power Forward! | A collaboration with BayWa r.e. to discuss higher level industry topics.
