

How do RC car battery chargers work?

RC car battery chargers with AC input let you charge your batteries from your workshop or household wall outlets. You can take DC chargers with you to the track and charge from a power supply or your auto battery. Others have AC/DC versatility and provide the advantages of both.

What is a RC Battery charger?

The N\C RC Battery Charger is a versatile and efficient charging solution specifically designed for 4.8V-9.6V NiMH/NiCD battery packs. This charger is ideal for RC car enthusiasts, as it is compatible with Traxxas batteries and 2.4V-12V battery packs.

Are RC car battery chargers AC/DC?

You can take DC chargers with you to the track and charge from a power supply or your auto battery. Others have AC/DC versatility and provide the advantages of both. These are only a few of the differences you'll see when you browse through the selection of RC car battery chargers in the Horizon Hobby's online catalog.

What is a computerized RC car battery charger?

Computerized chargers are capable of charging and maintaining almost any RC car batteries you might one day use, regardless of their chemistry, size, capacity, or voltage. Computerized RC car battery chargers include small microprocessors with voltage, current, and temperature sensing capabilities.

Which RC Battery charger is right for You?

The SUPULSE RC battery charger is a compact and efficient solution specifically designed for 2S and 3S LiPo batteries, making it a suitable choice for hobbyists who need a straightforward, no-fuss charger for smaller battery setups.

What is a fly RC Battery charger?

Designed for efficiency, the charger delivers a consistent charge of up to 850mA per cell, ensuring a reliable and fast charging cycle that gets hobbyists back to action quicker. When it comes to charging with minimal fuss, the Fly RC battery charger stands out for its simplicity, despite sacrificing some advanced features.

Choose a charger with a safe charging rate of 1C (which means one times the battery's capacity in amp-hours) for a quick charge of most RC batteries. Look for chargers with a charging rate of up to 5C for more ...

GruiRD Lipo LiFe Battery Charger for 2S 3S Battery(7.4V,11.1V) NIMH Charger for 1-8S Batteries(1.2-9.6v) Balance Charger Rc Car Drone Boat Toy Batteries Charger with ...

LiPo Battery Chargers and Power Supplies We offer a wide variety of RC LiPo Battery Chargers, Power supplies, and Charger Accessories. Popular brands include SkyRC, Dynamite, and E ...

This is the Traxxas EZ-Peak Dual iD 100W LiPo and NiMH charger. It will charge two 2S-3S LiPo, and 5-8 cell NiMH battery packs. The EZ-Peak Dual charger works with both iD batteries, and ...

to your 8s equipped X-Maxx. The pack includes two 4-cell 6700mAh iD LiPo battery packs for 50+mph tire-scorching 30+volt power. Traxxas iD batteries are the easiest and safest LiPo charging solution when ...

The Dynamite Passport Ultra Duo battery charger has 400W (200W x2) or power so it can charge 2 batteries at 10-amps each at the same time. With dual 200W output capability, the Ultra Duo can charge low-to ...

In this blog post, we will reveal our top RC battery charger recommendations, ensuring you'll never be left powerless again. Our picks cover everything from compact, ...

Attached are some photos of the charging station that I recently finished putting together for my Hyperion Super Duo3 and X-Charger B6 chargers. For field charging, I picked ...

The first ever onboard charging station for your RC Car. Forget about low voltage cut off and having to charge your battery everytime you drive. Let this system do it for you. IGEN Electric ...

I used to run an inverter off my car battery, but I had to make sure and start my car every couple of hours to prevent from killing my battery... those inverters are VERY inefficient, ...

LiPo Charging Station. Revolectrix PowerLab PL6; Revolectrix Bump Conctroller for the PL# serise chargers; Progresive RC Modular Para Boards (solder your own connector ...

Your RC Vehicle The Intelligent Two by 2S 5000mAh LiPo Batteries "Electron Dual" Charger Bundle by EcoPower combines cutting-edge battery and charger technology for a seamless and efficient power solution.

assuming no expense spared the best is hand down is a icharger 456/458 duo with a 24volt 1500+watt power supply. There is nothing better. But of course its not ...

Lipo Battery Charger, 1S-6S RC Car Charger 150W Lipo Charger 10A Balance Charger Fast Charge Discharge Smart Charger for LiPo/Li-ion/LiFe Battery(1-6s) NiMH/NiCd (1-15s) RC ...
