

What are redback's new solar inverters?

Another new addition is the Hybrid Battery 3-Phase system that combines a 10 kVA - 29.9 kVA solar inverter with 15 kWh - 25 kWh of battery storage, with the option extend capacity to 50 kWh. The last of the new offerings is the 3-Phase Grid-Tie Smart Inverter which Redback said complements its existing single-phase smart inverters.

What is a Redback Smart Inverter?

A Redback Smart Inverter is a very high efficiency solar inverter that works with your home solar system to give you maximum power from the sun for years to come. It is designed to withstand tough Australian conditions and provides quality performance.

Is redback launching a 'next generation' solar & battery energy storage solution?

Queensland-based Redback Technologies has announced that it will be launching its 'next generation' range of solar and battery energy storage solutions, inclusive of single-phase and three-phase options, at the All Energy Australia exhibition in Melbourne next week.

Who are Redback Technologies?

Redback Technologies offers affordable solar and battery solutions. They specialize in Australian-designed Inverters, Battery Systems, and Smart Hybrid Systems.

Does redback have a hybrid battery system?

Included in the new range is the Hybrid Battery System that Redback said offers increased power capacity with storage options up to 19.2 kWh paired with a 5 kVA or 6 kVA inverter. The range also includes the high-voltage Hybrid Battery Max storage solution that is available with 10 kWh - 25 kWh of battery energy storage capacity.

How long is the warranty for Redback Technologies' solar inverters?

Our solar inverters and other solar products come with a hassle-free 10 year warranty. When you choose a smart solar inverter from Redback Technologies, you're not just buying an advanced energy solution, but you're also investing in a decade-long assurance of quality and performance.

It's already compatible with all Single Phase Sungrow Inverters and a vast number of other brands so you can keep the connection agreement as explained OR Later on you can alter it and use any Catch compatible brand of ...

Sungrow inverters stand out for their reliability and the adaptability of their products across different markets and applications. Their enhanced IP65 environmental protection ensures ...
