

How much does a home EV charging station cost?

A home EV charging station could cost as much as £1,600 for the charger and installation combined. The ongoing cost you then need to consider is the daily cost of charging the electric car, which is why it's important to make sure you're on an electricity deal that works for you, whether it's an EV-specific tariff or not.

How to find public charging stations for electric cars? [Living With An Electric Car | Learn to drive: Car knowledge youtube.com](#) Do I need a home charging station?

A home charging station is essential if you plan to drive an electric vehicle. To qualify for this rebate, you must be a Consumers Energy residential electric customer, own a Plug-In EV or Plug-In Hybrid and install an approved Wi-Fi connected Level 2 charger at your home. To apply, please visit the link below.
