How much do solar panels cost in Missouri?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Missouri homeowner needs a 12.21 kW solar panel system to cover their electricity needs, which comes out to \$35,321 before incentives. Prices range from \$30,023 to \$40,619, but after the federal tax credit, that drops by 30%.

Is a solar power system worth it in Missouri?

Residents of Missouri buying a solar power system will enjoy numerous benefits, and many people feel that going solar is worth it. Electricity bill savings: Homeowners installing solar will supplement or replace their grid power consumption with clean energy from the solar power system with the right number of solar panels.

Does Missouri have solar panels?

Maybe one installer included shading from a tree, while another based its estimates on having that tree removed. Missouri is located in the Midwest Region of the U.S., and much of the state is prone to long, hot summers. Missouri gets an average amount of sunshine, so solar panels can produce enough energy to cover electricity costs.

How can I lower the cost of my solar panel system in Missouri?

To reduce the cost of installing solar panels in Missouri, you can take advantage of some important incentives. The major federal tax credit that provides a 30% rebate on the cost of any clean energy installations to your home is available to all US residents.

What solar incentives are available in Missouri?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Missouri:

In Missouri the largest incentive available is the 26% federal investment tax credit (ITC) which allows you to deduct 26% of the cost of your solar energy system from your taxes. Certain municipalities and utilities also offer cash rebates and ...
