

Who are the best solar companies in Riverside?

Here are the top companies we recommend for solar in Riverside: SunLux was started by 3 founders in very early 2015. They have been in the solar industry for nearly 10 years and have seen it all and done it all with over 6,000 installations under their belt. However, they had a vision to do things differently. They bui...

Are solar panels a good idea in Riverside?

As a homeowner or business owner in Riverside, you may be planning on switching to solar and curious about the best solar companies in your area. Solar could be a good idea since it has lots of perks. Because solar panels generate their own power, they can vastly bring down your electricity bill each month, if not entirely eliminate it.

How much does a 6 kW solar system cost in Riverside?

A 6 kW solar system will cost about \$16,080 in Riverside before incentives. After the 30% federal solar tax credit, this drops to \$11,256, or about \$1.88 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.

Do I need a solar battery in Riverside?

No, you don't need to install a solar battery in Riverside. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Should you get a solar loan in Riverside?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Riverside, rather than a leasing company retaining them.
