

Does Rocky Mountain Power offer a solar power incentive program?

Rocky Mountain Power's incentive program requires that the batteries be charged by on-site solar power systems in order to fully qualify. Electric utility Rocky Mountain Power (RMP) is incentivizing more than 50,000 residential and commercial solar power owners within Utah to install utility-managed Sonnen batteries.

Does Rocky Mountain Power offer the WattSmart battery program?

Currently the WattSmart Battery Program is available to Rocky Mountain Power customers in the states of Utah, Idaho and Wyoming. If you don't live in those states or Rocky Mountain Power is not your utility provider, you won't be able to take advantage of it. Getting involved in the WattSmart Battery Program is a straightforward process:

Is Rocky Mountain Power a residential or non-resident program?

Yes, residential and non-residential Rocky Mountain Power customers with electrical service in Utah, Idaho and Wyoming are eligible to participate in the program. Can I request to be removed from the program? Yes, customers can be removed from the program after providing 30-day advance notification to Rocky Mountain Power.

Can customers be removed from the Rocky Mountain Power Program?

Yes, customers can be removed from the program after providing 30-day advance notification to Rocky Mountain Power. If you decide to withdraw from the program during your commitment period, you will be required to payback a prorated portion of the incentive to Rocky Mountain Power based on the length of time you participated in the program.

How does Rocky Mountain Power verify a battery?

Rocky Mountain Power verifies ability to communicate and dispatch the battery. Will participating in the program negatively impact my battery? Rocky Mountain Power will have the ability to turn the battery on and off, as such participation in the program should not negatively impact your battery beyond what it is designed to do.

Who is a good fit for Rocky Mountain Power?

Rocky Mountain Power's WattSmart Battery Program is ideal for customers who are early adopters of technology, energy conscious, and want to make a positive impact on the environment with renewable energy. If these are things you're passionate about, this is a great way to be a part of a new program.
