

Can a saj inverter be installed in sunlight?

Installation directly exposed under intensive sunlight is not recommended. The installation site must have good ventilation condition. Although SAJ's inverters have surpassed stringent testing and are checked before leaving factory, it is still possible that the inverters may suffer damages during transportation.

Can a saj inverter be operated with a PV generator?

The SAJ inverter must only be operated with PV generator. Do not connect any other source of energy to the SAJ inverter. and persons. The solar inverter will become hot during operation. Please do not touch the heat sink or peripheral surface during or shortly after operation. Risk of damage due to improper modifications. Public utility only.

Can a saj inverter be wet?

Do not touch the surface of the inverter while the housing is wet, or it might lead to electrical shock. Before opening the housing, the SAJ inverter must be disconnected from the grid and PV generator; you must wait for at least five minutes to let the energy storage capacitors fully be discharged after disconnecting from power source.

How long does a saj inverter warranty last?

The purchaser of SAJ inverters (R5 series, Sununo Plus series, Suntrio Plus series, Sunfree hybrid series and AC-coupled inverters) should extend the warranty period in 18 months from the date of settlement or 30 months from the date of shipment from SAJ by providing the serial number of the unit and purchased receipt (whichever is shorter).

Is Saj liable if a solar inverter is lost?

SAJ is not responsible for the loss and these warranty claims. The SAJ inverter must only be operated with PV generator. Do not connect any other source of energy to the SAJ inverter. and persons. The solar inverter will become hot during operation. Please do not touch the heat sink or peripheral surface during or shortly after operation.

What happens if a saj inverter is unauthorized?

Any unauthorized actions including modification of product functionality of any form may cause lethal hazard to the operator, third parties, the units or their property. SAJ is not responsible for the loss and these warranty claims. The SAJ inverter must only be operated with PV generator.
