

Samsung solar remote only power button works

Why is my solarcell remote not working?

The biggest tell that your SolarCell Remote is not working is if your Samsung TV is not responding to button presses. Some buttons may work while others don't, or they might not work at all. Another telltale sign that your Samsung remote isn't working is when it fails to pair to your TV, even if the two devices have been connected before.

Why is my Samsung Smart Remote not working?

If your remote control still does not work, it may be defective, so please visit your nearest Service Center. When you turn on your TV for the first time, your Samsung Smart Remote should automatically pair with your TV. If your Samsung Smart Remote does not automatically pair with your TV, follow the guide below.

How do I Fix my Samsung solar remote control?

Here's a list of troubleshooting steps to quickly fix your Samsung solar remote control. Charge your remote using the solar feature or a USB-C cable. Pair your remote with the TV again. Charge your SolarCell Remote. A low charge can cause your controller not to work. Plug your remote in with a USB-C cable to charge it enough so you can use it.

How do I Pair my solarcell remote to my Samsung TV?

To pair your SolarCell remote to your Samsung smart TV, press and hold the Return button and the Play/Pause button for about three seconds. Your TV should then prompt you to complete the pairing process. 4. Monitor the SolarCell Remote's Battery Level

Can You charge a Samsung solarcell remote with a battery?

Use the provided USB-C charging cord, or use another device to control your TV in the meantime. Older Samsung SolarCell remotes have battery packs. While you can still charge your remote through solar power, you may need to also replace the physical batteries. Before doing so, make sure there is no damage inside the battery pack.

How do I Fix my Samsung TV remote not working?

Turn the TV on and unplug it. Hold the TV's power button for 30 seconds. Plug the power back in and turn the TV on. Use the remote to check if the issue is fixed. 2. Resync the TV and Remote When your Samsung TV remote stops working, re-pairing can fix the connection. This often solves problems like unresponsive buttons.
