

Who is SEPCO solar electric power company?

SEPCO Solar Electric Power Company manufactures commercial solar lighting and off grid solar power solutions for applications and installations worldwide. The solar LED lighting options we offer at SEPCO provide exceptional quality illumination to meet the needs of our customers. Visit us online to learn more

What does SEPCO stand for?

Solar Electric Power Company(SEPCO) is the pioneer in solar lighting and remote solar power systems and was started in 1994. Founded by Steve Robbins, who designed and patented the world's first commercial solar street light, SEPCO has been providing solar lighting and solar power solutions to customers worldwide.

How many kilowatts of solar power does SEPCO install?

SEPCO has installed over 3990 kilowatts of solar power through off-grid solar lighting systems to reduce energy demands and provide energy savings. SEPCO has 27 years of experience installing commercial solar LED lighting systems and off-grid power systems in the field.

Who is SEPCO?

SEPCO is the worldwide leader in solar lighting and off-grid solar power systems. We are helping the world go green by taking the lights off the grid.

Why should you choose SEPCO for commercial solar LED lighting?

SEPCO has 27 years of experience installing commercial solar LED lighting systems and off-grid power systems in the field. SEPCO manufactures independent solar solutions to help reduce cities' carbon footprints. Commercial solar LED lighting solutions are our specialty. Common applications include:

Who is SEPCO Pacific Energy?

SEPCO Pacific Energy is a joint venture between Pacific Energy Company Limited and SEPCO Electric Power Construction Corporation.

Solar Electric Power Company (SEPCO) is the pioneer in solar lighting and remote solar power systems and was started in 1994. Founded by Steve Robbins, who designed and patented the world's first commercial solar ...

The SolarASL system is a new way to light up streets and roads using solar power. It helps to save money on maintenance and energy bills. Each system is designed to use solar power to operate the bright LED lights for as ...
