

Is Serenity 64 a solar-powered yacht?

Courtesy Serenity Yachts Serenity Yachts is promoting its Serenity 64, one of two models (with the Serenity 74) in the builder's lineup of solar-powered yachts. The Serenity 64 is built with a carbon-fiber hull, bulkheads, stringers, and can be customized to an owner's wishes. PVC foam core adds rigidity and strength without weight.

What is a solar-powered Serenity 64?

The new solar-powered Serenity 64 will make its debut in the water at the Miami International Boat Show on Virginia Key, starting Feb. 13. The luxurious Serenity 64 uses the power of the sun to provide a virtually limitless cruising range, with all the space and comforts of a large power catamaran.

What is a serenity 64?

The Serenity Yachts 64 is the builder's first hybrid powercat and offers silent cruising at speed up to 6 knots. Courtesy Serenity Yachts Serenity Yachts is promoting its Serenity 64, one of two models (with the Serenity 74) in the builder's lineup of solar-powered yachts.

How many solar panels does the Serenity 64 have?

The Serenity 64 has more than 700 square feet of SunPower solar panels, which the builder says allow for indefinite cruising at a speed of 4 to 6 knots--including the use of onboard amenities that draw power of their own.

Who built the first Serenity 64?

Boyd Taylor and his wife, Elizabeth Neville, built the first Serenity 64 in 2018. Constructed in Turkey's free-trade zone, the first hull made its world debut at Cannes, France. But earlier this year they brought the second hull to the Miami Boat Show for its American debut. The couple live in Orlando, Florida.

What equipment does a serenity yacht have?

Courtesy Serenity Yachts The helm is standard with a Garmin electronics suite and the galley is outfitted with equipment from Siemens and Samsung. The builder says other options are available upon request.
