

Does Silicon Valley power offer a rebate?

Silicon Valley Power customers are now eligible for a rebate of \$2,000 when you upgrade your electric panel to a smart panel to accommodate additional load from converting natural gas to electric appliances and/or adding a Level 2 EV charger to your home.

Are there rebates for solar panels in Victoria?

In Victoria, rebates are now available for solar panel (PV) systems for businesses. Installing a renewable energy system to help reduce energy bills and greenhouse gas emissions is more popular than ever, and these rebates can help you save even more. To get the most out of your system, it needs to be planned and installed properly.

Does Silicon Valley Power offer a PHEV rebate?

Silicon Valley Power (SVP) offers rebates for purchasing electric vehicles. PHEVs are eligible for a \$1,000 rebate.

What incentives does Silicon Valley power offer?

Silicon Valley Power is now offering incentives to income-qualified customers for the purchase of a pre-owned EV or plug-in hybrid vehicle. Receive \$1,500 for a fully electric vehicle or \$1,000 for a plug-in hybrid vehicle. Customers who meet LIHEAP income eligibility requirements may be eligible for a bonus rebate of \$1,000.

Does Silicon Valley power offer a heat pump water heater rebate?

With a rebate from Silicon Valley Power, you can save \$500 on your new ENERGY STAR-qualified electric domestic heat pump water heater today--and even more on your electric bill tomorrow. Income-qualified customers may receive additional rebates up to \$500. To be eligible for the heat pump water heater rebate, just follow these simple steps:

Who is eligible for a solar panel rebate?

Only panel upgrades made on or after July 1, 2022 are eligible for the rebate; projects that received a rebate for a portion of the panel cost through other programs are ineligible. Panel upgrades must be done for the purpose of home electrification measures.
