

What is SKMEI?

SKMEI is a leading watch manufacturer and global famous brand focusing on precision, quality, innovation, customer, and service.

Are Skmei watches waterproof?

Skmei watches are water resistant up to 50 meters. It is recommended not to press any keys underwater.

Why should I buy a solar watch?

This is a decent size and fairly easy to read at wrist level. Incredibly it also has solar power. Unlike more expensive solar watches the solar panel doesn't charge the battery and only powers the digital panel not the hands, but used in the light this will help extend battery life and you really are getting a lot for very little money.

Is skmei better than casio?

Originally a Casio imitator (some of its designs came close to being exact copies save for the Skmei logo) Skmei now has its own designs as well. The digital is actually easier to read than some of the Casio analogue/digital designs where the digital display is tiny. This is a decent size and fairly easy to read at wrist level.
