

How does Sola/Hevi-Duty's power conditioner work?

Sola/Hevi-Duty's power conditioner works by recreating a well regulated sinusoidal waveform using its patented ferroresonant transformer technology. This waveform is well isolated from input disturbances such as impulses, swells, sags, brownouts, and severe waveform distortion.

Why should you use Sola/Hevi-duty MCR & MPC?

Sola/Hevi-Duty's MCR and MPC offer excellent noise filtering and surge protection to safeguard connected equipment from damage, degradation, or misoperation. Additionally, the MCR's patented ferroresonant design enhances the Mean Time Before Failure (MTBF) of protected equipment.

Why is Sola a good power conditioner?

Sola power conditioners are excellent at tightly regulating voltage within $\pm 1.0\%$ for input variations up to $+10\%/-20\%$. They also offer superior noise attenuation and are designed to withstand harsh electrical environments. Additionally, they have no moving parts, making them virtually maintenance-free.

Does Sola/Hevi-duty offer ODVA power supplies?

As a member of the Open DeviceNet Vendors Association (ODVA), Sola/Hevi-Duty has designed two power supplies specifically for DeviceNet applications. Sola's SDN DeviceNet™ models meet ODVA specifications for power supplies for either Thin or Thick cable applications.

What is a Sola MCR and MPC?

The Sola MCR and MPC are power conditioners that provide excellent noise filtering and surge protection to protect connected equipment from damage, degradation or misoperation. They increase the actual Mean Time Before Failure (MTBF) of protected equipment due to their excellent voltage regulation, which is inherent to Sola/Hevi-Duty's patented ferroresonant design.

Why should you choose Sola MCR hardwired?

The MCR is a perfect choice where dirty power, caused by impulses, swell, sags, brownouts and waveform distortion can lead to costly downtime because of damaged equipment. The Sola MCR Hardwired Series provides excellent noise filtering and surge suppression to protect connected equipment from damage, degradation or misoperation.

Sola/Hevi-Duty offers a broad range of power supplies, power conditioning, surge suppression, transformers, and uninterruptible power supplies. Home > Products. SDU DC DIN Rail: SDU AC DIN Rail: S2K Line Interactive: ...

Power Line Conditioner with Voltage Regulation, 1-Phase, MCR Hardwired Series, 60 Hz. VA: 3000. Volts Inputs: 120, 208, 240, 480. Volts Output: 120, ...

This item: Sola/Hevi-Duty 23-23-125-8 Power Conditioner . \$1,196.05 \$ 1,196. 05. Get it Sep 26 - 27. Only 3 left in stock - order soon. Ships from and sold by KHC Shop. + 10pcs 1 AWG-3/8" Battery Lugs,Copper Wire Lugs,Heavy Duty Battery Cable Ends,Tubular Ring Terminals,AWG Crimp Wire Ring Lugs,Battery Terminal Connectors with 3:1 Heat Shrink ...

Sola Hevi-Duty encapsulated transformers are rated for Hazardous Locations (Class 1, Division 2, Group A-D) as well as harsh industrial environments. ... Electrostatically shielded for quality power on sizes 1 kVA and larger ; UL Class 180°C or 200°C insulation system, 115°C temperature rise under full load ;

480 Volt Max Input, 1,000 VA, Hardwired Power Conditioner-120 Volt, 240 Volt Output, 9 Inch Wide x 17 Inch High x 7 Inch Deep. MSC # 54074604 Mfr # 23-23-210-8. Write the first review. \$2,613.24. ... Sola/Hevi-Duty. 480 Volt Max Input, 1,000 VA, Hardwired Power Conditioner. 120 Volt, 240 Volt Output, 9 Inch Wide x 17 Inch High x 7 Inch Deep.

480 Volt Max Input, 500 VA, Hardwired Power Conditioner-120 Volt, 240 Volt Output, 9 Inch Wide x 13 Inch High x 7 Inch Deep. MSC # 54074596 Mfr # 23-23-150-8. Write the first review. \$1,785.18. ... Sola/Hevi-Duty. 480 Volt Max Input, 500 VA, Hardwired Power Conditioner. 120 Volt, 240 Volt Output, 9 Inch Wide x 13 Inch High x 7 Inch Deep.

Sola/Hevi-Duty offers a broad range of transformers to meet many applications. These dry-type transformers are offered encapsulated, ventilated or non-ventilated, 600 Volt Class, isolation type, single and three phase, through ...

120 Volt Max Input, 30 VA, Hardwired Power Conditioner-120 Volt Output, 4 Inch Wide x 7 Inch High x 5 Inch Deep. MSC # 54074554 Mfr # 23-13-030-2. Write the first review. \$632.07. Web Price. Add to Cart ... Sola/Hevi-Duty. 120 Volt Max Input, 30 VA, Hardwired Power Conditioner. 120 Volt Output, 4 Inch Wide x 7 Inch High x 5 Inch Deep.

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology - most power disturbance corrections are ...

The Sola MCR and MPC provide excellent noise filtering and surge protection to protect connected equipment from damage, degradation or misoperation. Combined with the ...

Power Conditioner, Mounting Type Panel Mount, Max. Amps 0.5A, Input Voltage 120V, Output Voltage 120V, Power Rating 60VA, Output Watts 60 W, Hardwired, Width 4 in, ...
