

Colorsound Overdriver: Colorsound / Sola Sound » preamp / clean boost pedal » ... Now we make the classic Orange Power Boost to sound the same as the original but in the Overdrive we've added an FET in the preamp ...

The previous ThroBak Overdrive Boost version was a compact pedal, but it only had 3 dials and a single footswitch. The coolest derivation here is the Wall of Sound pedal with its separate independent boost footswitch and ...

The Sad Café is my take on the Sola Sound Power Boost. It's a very useful and versatile circuit, yielding a boost that can raise your signal to teeth-shattering levels. Seriously, it's dangerous. ...

Anthony Macari (Colorsound) As out 50th anniversary draws near, we proudly present the 18v POWER BOOST (TM) made by Mr Stuart Castledine for Sola Sound .. It's ...

Overdriver / Power Boost circuit history. The Power Boost was first released in 1970 by Sola Sound / Colorsound, the house brand of the Macari's music store on Charing Cross Road in London, who also created and ...

Both the Power Boost and Overdriver were housed in the original Tone Bender style, pressed sheet metal cases. The circuit was possibly designed by Gary Hurst, creator of the Sola Sound Tone Benders, and many other Sola ...

From Sola Sound:It's great to be involved with yet another great British builder and especially Stu who seems to know this circuit better than anyone on the planet.The pedal itself needs little ...

Vox (by Sola Sound) Power Boost (rare!!!) Absolutely Analog Fist; Balls Powerful Booster; Black Arts Toneworks Black Forest; Buffalo FX 18V Power Booster; Electronic Orange Banana Boost - Vintage Power-Booster ...

As out 50th anniversary draws near, we proudly present the 18v POWER BOOST (TM) made by Mr Stuart Castledine for Sola Sound . It's great to be involved with yet another ...

Creation (1969): The Colorsound Power Boost was introduced in 1969 by Sola Sound, a British company known for its effects pedals. Sola Sound was founded by Gary Hurst, who had ...

The Overdriver is - as the name suggests - an overdrive pedal with a distinctive bass and treble boost. The pedal works very well with any kind of tube amps. With single coil pick-ups it gives a very transparent and

super clean boost that ...
