

What is the Sola SDU DIN rail DC UPS?

The Sola SDU DIN Rail DC UPS is an advanced 24 Vdc uninterruptible power system. It combines an industry leading design with a wide operational temperature range and unique installation options, providing protection from power interruptions.

How does the s3k series uninterruptible power supply work?

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology- most power disturbance corrections are accomplished without transferring to the internal battery.

What does the SDU DC UPS protect against?

The SDU DC UPS is a powerful, microprocessor controlled UPS that provides protection from power interruptions. The Sola SDU DIN Rail DC UPS is an advanced 24 Vdc uninterruptible power system that combines an industry leading design with a wide operational temperature range and unique installation options.

What is a Sola external battery module?

Sola's external battery module is the only one on the market that allows you to seal the electronics in the panel and maintain safety by placing the battery outside of a non-ventilated enclosure. These units were designed specifically for use with Sola's popular SDN Series of power supplies.

What is a s3k uninterruptible power supply mini-tower?

The S3K uninterruptible power supply mini-tower is an economical choice for those applications requiring the performance of a sinewave output, line interactive UPS with the mini-tower shape for cabinet installations.

What is a s1k uninterruptible power supply?

These uninterruptible power supply units include two types of outlets; three for critical devices needing battery backup and surge protection such as the CPU and one surge protected only outlet is for non-critical devices like printers and fax machines. The S1K uninterruptible power supply is ideal for point of sales and office applications.

The SDU 20-24 is a direct current Uninterruptible Power Supply (DC UPS) that combines an industry leading design with a wide operational temperature range and unique installation options. The SDU DC UPS is a powerful, ...
