

Why should you get a solar power bank?

Having a solar power bank means being able to charge all your electronics anywhere, any time. Say good-bye to dead mobile phones during travel or extended periods away from an outlet. No more dying tablets, phones, or other small devices. Sunlight is all you need to charge your gear on the go. Talk about peace of mind!

Do solar power banks work with cell phones?

Solar power banks are usually compatible with almost all types of cell phones and electronic devices. Some of them even have a wireless charging option. This way, you will not have to worry about bringing extra cables in your backpack. Solar power banks are compact and lightweight.

What can you charge with a solar power bank?

A solar power bank can charge devices that can be charged via USB. Solar panels can typically still be used to charge power banks that don't have solar inputs, but you may need to get a third-party adapter to go from your panel to the USB.

How many devices can a solar power bank charge?
