

Is adding a solar fountain to my pond a good idea?

Adding a solar fountain to your pond can make it into a tranquil water feature. The sound of the moving fountain water is so relaxing! No mains power is required and they can be used at night using the battery which is powered during the day from the solar panel. Various sizes are available, to suit different pond sizes.

What do solar water fountains do for pond water?

Solar water fountains not only create different fountain patterns but also help to keep the water clean and safe for fish, if they inhabit the pond. These water fountains powered by solar energy usually float on the surface of the pond and make waterfalls of different height and width.

Can a pond and water fountain run off a solar battery?

Running off a solar battery, this fountain adds oxygen to your pond, as well as providing the soothing sound of water in your garden. Water is an important feature in any wildlife-friendly garden, so the addition of a pond and water fountain is a great way to support the nature on your doorstep.

How strong is a solar pond fountain?

FEATURES Solar Panel Strength: 1.4 Watts. Can be operated by Remote Control (Supplied - works up to 10 metre distance). This is the smallest size of the static solar pond fountains, with a solar panel that is placed by the side of the pond, and attached with a cable. Ideal for a small pond or water feature, such as a half whisky barrel.

What is a solar pond fountain pump?

A solar pond fountain pump is a device that uses solar power to create a water fountain in a pond. This specific model includes a solar panel with an interior battery, creating a waterfall up to 2.62 feet high with a maximum flow rate of 53 gallons per hour.

What size pond should a solar panel be placed next to?

Solar panel fountains are ideal for a large water feature or small to medium sized pond. The solar panel is placed next to the pond. These fountains are suitable for medium to large ponds, with some models capable of creating a high fountain spray.
