

What is a solar charger power bank?

Our solar charger power bank is the perfect solution for keeping your devices charged while on-the-go. Equipped with a high-efficiency solar panel, it can harness the power of the sun to charge its own built-in battery. It also has a USB output, allowing you to charge your phone, tablet, or other USB-powered devices.

How many devices can a solar power bank charge?

The USB C port can be used as both input and output, and with two USB A ports, the solar charger can charge up to three devices simultaneously. Fully charge the solar power bank via its high-performance solar panels while traveling away from electricity, or via wall outlet on a daily basis.

What can you charge with a solar power bank?

A solar power bank can charge devices that can be charged via USB. Solar panels can typically still be used to charge power banks that don't have solar inputs, but you may need to get a third-party adapter to go from your panel to the USB.

Why should you choose a portable charger solar power bank?

The perfect sustainable and eco-friendly charging solution for outdoor activities, camping trips, and emergency situations. The power bank portable charger is perfect for travelers, commuters. The Portable Charger Solar Power Bank is the perfect solution for those who are always on the go.
