

Will Makro offer fully installed solar power systems?

Makro has announced that they will offer customers fully installed solar power systems as there has been a significant increase in demand for backup power solutions. Details on the products will be available on the website from August 2022.

What back-up power solutions does Makro offer?

Due to this, Makro has expanded its catalogue of back-up power solution products. "New products such as the Mobi-Volt, which is a portable device with a built-in Lithium-Ion battery and inverter, offer solutions from 0.5kW, 1.0kW, 2kW, 3kW and 5kW," Lindhorst said.

How do you charge a solar power bank?

Most solar power banks have two power options - wall charging and solar charging. To charge a solar power bank, your best bet for a quick-charge is to plug it in and use the sun rays to keep things kicking.

Why is Makro expanding its range of back-up power solutions?

He said Makro has seen an increasing demand for generators, inverters, gas cooking tops and cylinders, rechargeable globes, and lanterns. Due to this, Makro has expanded its catalogue of back-up power solution products.

When will a power wall be available at Makro?

Year-on-year sales for alternate power-related categories have gone up by over 300%," he said. He said the power wall will be available in-store at Makro from the end of August 2022. "This is going to be a popular solution for our customers because it can be fitted next to your DB board and connected by a qualified electrician within 90 minutes."

How does a solar power bank function?

A solar power bank, such as the one featured, charges up quickly via solar energy or with two different USB cables. It offers versatility by providing multiple charging options. Additionally, it serves as a large, super-bright LED flashlight with 3 different modes, making it ideal for avid campers or off-the-beaten-track travelers.
