

Could a \$2.3 billion solar battery rebate save you money?

If you're a home or business owner with solar panels (or thinking about getting them), there's some exciting news on the horizon: the federal Labor Party has proposed a \$2.3 billion battery rebate that could dramatically reduce the cost of adding a home battery system. This battery rebate was announced on 6th April 2025.

What is a solar battery rebate?

The battery must be installed and turned on after July 1, 2025. This rebate is structured similarly to the current Small-scale Technology Certificates (STCs) used for solar panels. It gives you an upfront discount. But you only get to claim this battery rebate once. That means you need to size your system carefully from the start.

What is labor's solar battery rebate?

At its core, Labor's plan seeks to make solar battery storage more accessible to Australians. The rebate will cover 30% of the cost of installing a home battery system, with the average Australian home saving around \$4,000 on the cost of installation.

What is a solar rebate or subsidy?

A solar rebate or subsidy covers part or all of the upfront cost of buying solar or a battery. Rebate schemes operated by states, territories, and local governments may have specific eligibility criteria based on the type of housing or the people applying.

Am I eligible for a solar or battery rebate?

You may be eligible for a solar or battery rebate depending on your location. Some states and territories allow you to apply for a rebate on top of an interest-free loan. These can complement one another and further reduce the cost of your system. You will still be able to collect small-scale technology certificates (STCs) under the Small-scale Renewable Energy Scheme (SRES).

When does the Federal battery rebate start in 2025?

On Sunday, 6 April 2025, the Labor government announced a new federal battery rebate. It's part of a wider policy to reduce electricity bills and boost grid reliability. If Labor wins the upcoming federal election on May 3, the rebate will start on July 1, 2025. Here's how it will work:
