Who is somewatt solar Cape Town?

Welcome to SomeWatt Solar Cape Town! We are a Cape Town based solar energy solutions company. Our individually tailored solar PV and battery backup systems designs turn roofs into reliable, renewable power sources. Harness the Cape Town sunshine and ditch load shedding with SomeWatt Solar.

What types of solar panels are available in Cape Town?

From polycrystalline panels to solar photovoltaic systems, the right type of solar panels in Cape Town is an important factor in generating solar electricity from the sun's energy. You'll also benefit from energy security by producing excess electricity that can be fed back into the grid or stored in a battery for later use.

Why should you buy solar panels in the Western Cape?

You'll also benefit from energy security by producing excess electricity that can be fed back into the grid or stored in a battery for later use. This applies to residential properties and commercial solar installations across the Western Cape, with many solar panels for sale to choose from.

How much solar power do I need in Cape Town?

That depends on how much Electricity you are using every month. 1kWp of Solar Power in Cape Town produces between 1,400kWh and 1,700kWh per annum, depending on roof angle, technology and skill level of your Turnkey Integrator. Most households will cover their annual Electricity needs with a 1kWp to 6kWp of Solar Power.

Does treetops offer solar system financing in Cape Town?

Treetops offers Solar System Finance (also PV Renting) in Cape Town. For now our offering is limited to commercial, industrial and agricultural clients. However, we are actively pursuing possibilities to offer an affordable financing option for Homes and Houses, to enable everyone to benefit from Solar Power in Cape Town.
