

Are solar catamarans eco-friendly?

Solar boats are electric yachts that can go for long distances without needing to stop for fuel and without emissions. Those solar catamarans are interesting eco-friendly alternatives to the classic power boat or sailing yacht for cruising. However, there are also a few disadvantages that you should know about before purchasing one!

What is a solar-powered catamaran?

With two double cabins and a spacious helm, this compact 40-foot (12-metre) solar-powered boat provides a high level of comfort. The Sun Concept CAT 12.0 Cruise is a solar panel-powered catamaran with exceptional autonomy, unparalleled livability and 360° views from a fully air-conditioned helm area.

Why is a solar yacht a catamaran?

Solar yachts are all catamarans for 2 main reasons: Catamarans have a larger surface, which allows for placing more solar panels and also offers more room for the batteries onboard. Catamarans have efficient hulls for their size. This reduces their power consumption while moving.

Which solar panels are best for a catamaran?

With a thickness below 1mm, the ultralight solar skin is the industry's lightest and most efficient solar power solution. Thanks to their advanced integration technique, Sunreef Yachts Eco solar panels have a very high resistance to shock and abrasion. The catamaran was also fitted with a powerful custom-engineered battery bank.

Why should you buy a Solar catamaran?

Solar panels make for an ideal energy provider as they ensure the batteries always have power. This makes solar catamarans more self-sustainable and cost efficient to run in comparison to gas-powered ones. Additionally, fewer moving parts in solar catamarans call for significantly lesser maintenance in comparison to diesel yachts.

How many solar panels does a 'catamaran' have?

Her large, user-friendly flybridge is fitted with 15.55 m² of solar panels fully integrated into the catamaran's line, capable of delivering 2000 Wc of energy to power two battery banks supplying up to 32 kWh each.

Enhanced by a razor-sharp hull with a 1:20 ratio, this innovative solar-powered day catamaran ensures peak efficiency, comfort, and maneuverability to rival and outperform gasoline- ...
