

Which companies are best for solar in Florida?

Here are the top companies we recommend for solar panel installation in Florida: Solar Roof Airis the company most qualified to help homeowners throughout the Sunbelt to lower their monthly energy bills by installing solar panels.

Who is the best solar installer in Florida?

For example, Solar-Ray scored well with EcoWatch Reviews because it's a preferred solar service provider of Duke Energy, Orange County Public Schools, Orlando Utility Commission and University of Central Florida. These seven solar companies are the best solar installers in Florida, but SunPower reigns supreme for our EcoWatch rankings.

How many solar installers are there in Florida?

As the third most popular state to go solar, it should come as no surprise that Florida is home to more than 200 solar installers, all offering different products, warranty packages and customer service. While it's great to have options for your installer, having so many can quickly make deciding which one is best a real challenge.

What are the best Solar Lease companies in Florida?

When it comes to solar leasing in Florida, two big names stand out: SunPower and Sunrun. SunPower offers a unique guarantee on the energy output from the leased system, providing an additional layer of protection.

Do solar panels work in Florida?

The good news is that Florida sunshine is abundant, so even lower-quality solar panels will still perform well in The Sunshine State. With an average solar irradiance of 5.65 kWh per square meter per day, Floridians can often get away with smaller systems per kWh they need to produce to offset their electric bills.

Which solar provider should I choose for my Florida solar project?

Overall, we recommend most Floridians go solar with SunPower or ADT Solar, but we also are confident that all of the providers above can meet and even exceed your expectations. The table below provides some side-by-side facts and figures for our top providers to help you decide which might be right for your solar project.
