

What is a solar cover?

A solar cover is also known as a solar blanket or tub cover. It is an environmentally friendly and sustainable means of maintaining a hot tub because it works off renewable solar energy, reducing the need to use regular electricity.

Could solar panels provide 65% of global electricity?

Covering the world's rooftops with solar panels could provide 65% of global electricity, according to the findings of new research from the University of Sussex.

How much electricity can a rooftop solar system generate a year?

It then calculates that if every suitable roof was used, rooftop solar could generate 19,500 TWh of electricity per year, allowing for fossil fuel-based electricity to be replaced almost entirely, when coupled with load shifting and battery-electric storage.
