

Are solar tax credits available in Connecticut?

Connecticut is one of the top ten states for solar policy and incentives and has consistently ranked high in solar installations per year for the past few years. There are solar tax credits and incentives available at the state level in Connecticut. The calculator above will show you the value of all incentives your home is eligible for.

Are solar panels a good investment in Connecticut?

Solar panel systems in Connecticut are expensive, but incentives from the state and federal government can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

How much do solar panels cost in Connecticut?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Connecticut homeowner needs a 10.99 kW solar panel system to cover their electricity needs, which comes out to \$32,628 before incentives. Prices range from \$27,734 to \$37,522, but after the federal tax credit, that drops by 30%.

Is it worth going solar in Connecticut?

Going solar in Connecticut is worth it for all residents, as they are eligible for the federal tax credit, worth 30% of the total cost of their solar panel system.

How do solar panels work in Connecticut?

From there, an electrician will connect your system to the Connecticut power grid to activate your panels and install an electrical meter that measures your solar production. (Solar Reviews) It's important to note that your contractor must be a certified E-1 Unlimited Electrical Contractor to complete both the electric grid and panel connection.

Should you install solar panels in Connecticut?

Connecticut is better known for its historic homes and white sandy beaches than for its ample sunshine. But with affordable state financing options and some of the highest electricity rates, it's still a great place to install solar panels. In fact, as long as you have the right roof, solar makes sense for most Connecticut homeowners.
