

Who is solar power direct?

Solar Power Direct specialises in the design, planning and installation of high quality solar power systems. Servicing Adelaide and South Australia with an award winning electrical team, based in Welland, quality, honesty and integrity are always at the forefront of our minds.

Can Powerdirect help with solar installation?

Powerdirect doesn't offer solar installation, however it can help you organise this through its sibling company, AGL. Powerdirect also tries to help customers save on their power bills with energy saving tips and advice.

Is solar power direct a good company?

Have not used grid power since it has all been installed and I have an EV which is now 100% charged during the day on renewables. I am extremely impressed with the whole team's cohesive approach and I am very impressed with the overall professional nature of all of my dealings with Solar Power Direct.

Would you recommend solar power direct?

Would thoroughly recommend Solar Power Direct. So pleased to have had Solar Power Direct complete the process of installing my panels and battery system. The quoting was carried through with an inspection and discussion around what is suitable for the system to function at its optimal.

How much does solar power direct cost?

Solar Power Direct prides itself on being a Clean Energy Council Approved Solar Retailer, so you can be assured that we follow Best Practice measures and activities when selling Solar Systems. Reviewers report paying: \$5,200 - \$13,000 for depending on hardware choice and installation difficulty (how is this calculated?)

Why should I choose solar power direct?

The team at Solar Power Direct were understanding and knowledgeable from the start of the process, and were able to adjust their install method for our roof. Pricing was reasonable, with good quality Risen panels and a Fronius inverter. Didn't try to oversell, didn't push batteries and we were able to eliminate the need for optimisers.
