

How can I use solar energy in Minnesota?

Get educated: Solar can generate electricity, heat water, or help heat your home. Making electricity is the most common use of solar energy in Minnesota today. Learn about solar through sources such as the Clean Energy Resource Teams (CERTs) and the U.S. Department of Energy (DOE). Take a class on solar basics.

Is solar power a good option in Minnesota?

Generally speaking, solar power is well-accepted in Minnesota, along with other renewable energy sources. The state is relatively environmentally conscious, with a Renewable Portfolio Standard (RPS) goal of producing around 26% of its energy production via clean energy sources by 2025.

How much do solar panels cost in Minnesota?

However, most Minnesotans require a smaller-than-average system of just 8 kilowatts, bringing the total price to around \$20,160 after the federal tax credit is considered. Solar panels are more valuable in areas where energy needs or electricity rates are high. The price of electricity is around average, and the energy consumption is below average.

How much can you save on solar panels in Minnesota?

Solar panel systems in Minnesota are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

Are solar panels a good investment in Minnesota?

Solar panel systems in Minnesota can be a good investment despite their upfront cost. Thanks to incentives from the state and federal governments, including the federal tax credit, you can save thousands on solar panels, making them well worth the investment.

Should you install solar panels in Minnesota?

Installing solar panels leads to big long-term savings on electricity bills for Minnesota homeowners. On average, you'll spend \$10,815 to \$30,900 for panels that last about 25 years. Over that same time period, you'd avoid approximately \$59,279 in total utility costs.
