

How can solar power help Massachusetts homeowners?

At Sunrun, we help Massachusetts homeowners tap into the abundance of energy resources available through residential solar power. With battery backup combined with solar panels, Massachusetts residents can cut energy costs and also reduce utility dependence.

Is a home Solar System a good idea in Massachusetts?

The state of Massachusetts has created a variety of solar programs that make solar and energy storage a wise decision for homeowners. If you choose to be a home solar system owner, there are a variety of solar rebates and energy credits available that reduce the upfront cost of solar installation.

Is solar energy a good investment in Massachusetts?

Additionally, Massachusetts also has no sales or property taxes associated with your solar installation. View all solar incentives available in Massachusetts. You can reduce your environmental impact while supporting an energy saving industry. Solar energy reduces carbon emissions and other pollutants by generating power from a renewable source.

How much do solar panels cost in Massachusetts?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Massachusetts homeowner needs a 10.62 kW solar panel system to cover their electricity needs, which comes out to \$33,132 before incentives.

How much can you save on solar panels in Massachusetts?

Solar panel systems in Massachusetts are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

Can you sell solar energy in Massachusetts?

Typically for every megawatt-hour (MWh) of solar energy your system produces you earn one SREC which you can then sell. As of November 2018 Massachusetts solar renewable energy credit programs are now closed. A replacement program to SRECs, known as the Solar Massachusetts Renewable Target (SMART program) was introduced.
