

Are pond fountains solar powered?

These magnificent fountains are powered by solar energy, offering a sustainable and energy-efficient way to add beauty and elegance to your outdoor space. Transform your pond into a captivating focal point with the mes

Is adding a solar fountain to my pond a good idea?

Adding a solar fountain to your pond can make it into a tranquil water feature. The sound of the moving fountain water is so relaxing! No mains power is required and they can be used at night using the battery which is powered during the day from the solar panel. Various sizes are available, to suit different pond sizes.

What sizes are solar pond fountains available in?

Our solar pond fountains are available in a 1/2 and 1/3 HP size. Adding a solar aerator allows you to get much needed oxygen into ponds that are off the grid. We have solar aerators that come with or without batteries and in various sizes.

What size pond should a solar panel be placed next to?

Solar panel fountains are ideal for a large water feature or small to medium sized pond. The solar panel is placed next to the pond. These fountains are suitable for medium to large ponds, with some models capable of creating a high fountain spray.

How much aeration does a solar water fountain provide?

The Solar Pond Fountain provides aeration for ponds up to 1/2 surface acre, up to 6' deep. Larger ponds may require additional diffused aeration or multiple solar-powered fountains.

Does the Solar Pond Fountain need a nozzle?

The Solar Pond Fountain does not require a nozzle. The Classic Spray Pattern comes pre-installed on the SolarSeries solar powered water fountain, creating a beautiful, classic V-shaped pattern and a relaxing sound as the water breaks the surface.
