

Who is a Geelong solar supplier & installer?

We are a leading solar supplier and installer across the Geelong region, encompassing many suburbs located in South West Victoria. Our focus is on installing the right solar hot water, solar power panel and battery storage systems for our customers' needs, and to only use the best quality products on the market.

Who is Geelong solar energy?

Steve: 0409 883 891 Josh: 0401 261 918 At Geelong Solar Energy we can reduce your power bills, lower your carbon footprint and help you to build a more sustainable future. We supply and install solar systems and battery storage systems in Geelong, The Surf Coast, the Bellarine, Winchelsea, Colac and the Greater Geelong District.

Are solar panels coming to Geelong?

Council reached more than half a megawatt of solar power capacity in 2019 and there's more to come as part of its emissions reduction commitment goals. Solar panels are popping up everywhere in Geelong, including at Deakin University's microgrid and various schools. Even the oil refinery is considering installing PV.

Do Geelong residents need a solar PV system?

All grid-connected Geelong residents may benefit from having a solar PV system installed in two ways: - Avoiding purchase of electricity from the power grid/electricity retailers by consuming solar power as it is generated ("self-consumption").

Why should you choose solar panels Geelong?

Solar Panels Geelong will carry out a comprehensive energy usage audit and analysis of your premises to design the most efficient system for your situation. Right from the start, your system is built with performance and durability in mind. Every member of our team are educated on our focus and commitment to customer focus.
