

What is a solar generator kit?

A Solar Generator Kit has everything you need to go solar quickly and easily. Whether you want to keep your devices powered up during a blackout or take power with you on the go, Solar Generator Kits from Shop Solar have the top portable power stations on the market yet still manage to save you 50% or more on the cost of a solar power system.

Which solar generator kit should I buy?

For a complete home backup solution, I recommend this EcoFlow Delta Max solar generator +220W solar panel combo. It's enough to keep your most essential appliances powered and devices charged during an extended blackout. This kit comes with a foldable solar panel.

What can you plug into a solar generator?

When utility power goes out, you can plug in your essential appliances and devices into the solar generator. Solar generators offer a clean backup power solution compared to gas generators.

What does a solar kit include?

These kits include all of the cables, connectors, adapters, solar panels, needed to get up and running with quiet, free reliable solar power! Experience simplicity, value, and reliability with our complete solar kits. Embrace the freedom of renewable energy and take control of your power needs.

What are solar backup generators used for?

Solar backup generators are used for powering home appliances like refrigerators and air conditioners, and providing reliable backup power for critical medical devices. Backup power for the home has become critical because of our increased reliance on connected devices including phones and laptops.

How do I buy a solar kit?
