

What is the cost of a solar generator?

The cost of a solar generator varies, but you can expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could power a couple of appliances, keep lights on, and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

How much does a home backup solar generator cost?

The cost of a home backup solar generator that can power most appliances, keep your LED lights on, and charge your electronics ranges between \$2,000 and \$10,000. This depends on the capacity, power rating, and included accessories.

Is a whole house solar generator worth it?

A whole house solar generator is worth it if you want to backup a few appliances, power the lights, and recharge your phone and other gadgets. It's far less expensive than setting up a home solar system with roof-mounted panels, a battery bank, miles of wiring, and so on. Whether it's worth it depends on your specific needs.

How much does a solar power kit cost?

A complete solar power kit for whole home use, including batteries, inverter, battery charge controller, safety breakers, grid-tie equipment, installation accessories, and solar panels, costs between \$8,000 and \$30,000.

What is a popular whole house solar generator?

One of the best sold today is the EF ECOFLOW DELTA Pro which provides up to 3.6kWh of energy. Expect to pay between \$3,000 and \$4,000. There are bigger power stations that can power a significant chunk of your home.
