

What grants and incentives are available for solar energy adoption in Alberta?

Alberta offers a range of grants and incentives to encourage the adoption of solar energy systems. In this article, we will highlight some of the programs available in Alberta and their municipalities for 2023. The Greener Homes Program is a federally-run initiative aimed at promoting sustainable living through solar energy adoption.

Does Alberta have a solar program?

Unfortunately, the large Energy Efficiency Alberta Residential and Commercial Solar Program is no longer available. However, several regional incentives exist for Albertan homeowners: Note that all provinces also have access to the Federal Greener Homes Rebate of up to \$5,000. This could reduce the cost of a 7.84kW system from \$23,285 to \$18,285.

Can you get a solar grant in Alberta?

The answer is a resounding yes, and this guide covers the most common Alberta solar grants 2023. Change your home or business with renovations that use clean energy. Investing money in energy-saving and renewable energy modifications is a great way to lower cost, enhance your home's comfort level, and increase the value of your property.

Does Alberta have a solar rebate program?

Alberta is one of the most abundant provinces in the country when it comes to regional solar energy incentives. It does not have a provincial rebate program, but several regional programs exist. These factors are important because they reduce the upfront system costs. We've scored Alberta 7/20 for this section.

How many energy incentive programs are available in Alberta?

There are at least 6 other energy incentive programs available in Alberta. While not considered in our solar rankings, many homeowners choose to leverage these (i.e., home energy efficiency incentives) around the same time they switch to solar. Production Potential: 1276kWh per kW per year
