

Do solar systems work in Massachusetts?

Many people have the misconception that solar (PV) systems do not work in Massachusetts, due to New England's diverse weather conditions. However, the experts agree that Massachusetts is an excellent location for solar systems. This section describes the different types of solar energy and how they are used in Massachusetts.

Are solar panels a good idea in Massachusetts?

Solar panels can still generate power in cloudy or overcast conditions, and your installer considers local climate conditions when designing your system. Despite getting less sun, Massachusetts is actually one of the best states in the country to go solar because of high electricity prices and solar-friendly policies.

What is the Massachusetts smart solar program?

Through the MA SMART solar program, the state's three investor-owned utilities compensate solar owners for the electricity their systems produce. The program is one of several solar incentives available in Massachusetts that reduces the cost -- and increases the savings -- of installing a home solar system.

What is the cost of solar in Massachusetts?

The cost of solar in Massachusetts is typically around \$3.72 per watt, making it higher than the national average of \$3.33. Massachusetts is one of the more expensive states for photovoltaic equipment.

Can a home solar system reduce energy costs in Massachusetts?

Massachusetts has other solar incentives that can reduce the cost of going solar and the state boasts the fourth-highest electricity prices in the nation. So, even without the SMART incentive, Bay Staters can substantially reduce their electricity costs and carbon footprint by installing a home solar system.

Is solar a good investment in Massachusetts?

The U.S. Energy Information Administration's "Solar Explained" web feature provides more details on Photovoltaics and Electricity. PV systems are quiet and non-polluting, and they can also help to reduce electricity bills. They are also becoming more and more affordable. Massachusetts is one of the most affordable places to install solar.
