

Is East Texas going to have new solar farms?

East Texas will soon be home to some new solar farms as part of an effort for more renewable energy by the Texas-based company Vistra, the parent company of Luminant Energy.

Which Texas solar installation companies offer more than just solar installation?

Several Texas solar installation companies offer more than just solar installation. The solar panels and battery backup systems are the minimum that should be offered by a given company. Some companies, such as Solartime USA and NRG Clean Power, can do even more.

Where are solar panels located in Texas?

In West Central Texas, on Garland Richards' ranch, two square miles of silicon solar panels spread out, resembling a shimmering blue expanse like a lake. The Holstein solar farm, which began operating in July in Nolan County, is as long and broad as a small town.

Who are Eastex solar?

Our system designs utilize the most reliable components in the industry, resulting in the lowest cost of ownership and highest return on your investment. Eastex Solar was formed by Cal Morton, a 12 year veteran of the solar industry, with son Luke performing lead journeyman duties, while Reece, an installer for years, handles most sales enquiries.
