Where can I get a solar system installed?

Our team operates all over the state, and can help you decide which solar system is right for your individual needs. Reach out to Pennsylvania Solar Energy Company in Pittsburgh, Greensburg & Washington, PA today to schedule your solar system installation.

Is solar a good investment in Pittsburgh?

In Pittsburgh, the average resident can save about \$1,600 a year on their electricity bills. Solar is a worthwhile investment for most homeowners. You can produce your own energy instead of paying for it from a utility company and benefit from solar tax credits and rebates, all while helping the environment.

How much solar power is generated in Pennsylvania?

In Pennsylvania, 420 megawatts of solar power is generated, enough to power 53,000 homes. According to a study from Zillow, PA ranks second in the nation for solar panels increasing the value of homes up to 4.9%. At Green Solar Systems, we're the locally owned, experienced, hometown contractor you can count on.

Where is solar energy located?

We're located in Washington, PA and serve the entire state of Pennsylvania. How does solar energy work? The concept of solar energy is amazing. When photons from the sun react with the solar panel, it releases electrons that turn into electricity. Photons are present even on cloudy days.
