How much does solar cost in Miami FL?

The average price per watt of solar power in Miami, FL is \$2.16/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$23,916 for a 15.81 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

What are the best Solar Lease companies in Miami?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Miami.

Should you get a solar loan in Miami?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Miami, rather than a leasing company retaining them.

Is Sunrun a good solar company in Miami?

Sunrun is another big name you'll likely come across when researching solar leases in Miami. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Miami?
