

What is SolarReviews?

SolarReviews is a platform that provides unbiased consumer reviews of U.S. solar companies and an expert ranking system to help you find the best solar panel installation companies in your area. It also offers an accurate solar calculator built by in-house solar experts and engineers since 2013.

Who are the top solar installation companies?

Our top three choices for solar installation companies are Freedom Solar, Blue Raven Solar, and Palmetto. In our review, we compared these companies and other top-rated providers to determine the best options.

What makes a good solar installer?

Those would be the installers who use high-quality products, demonstrate superior workmanship, have established track records, and deliver reliable after-sales support. By the same token, we also want to weed out the bad solar installers: the companies that perform low-quality installations and disappear once the job is done.

When was SolarReviews founded?

SolarReviews was founded in 2013. Since then, our in-house solar experts and engineers have built one of the most accurate solar calculators available. SolarReviews has both an extensive collection of unbiased consumer reviews of U.S. solar companies and an expert ranking system to help you identify the best solar panel installation companies in your area.

How do I choose a solar panel installer in Australia?

Ask your installer for proof of accreditation. A good reputation accompanied by a decent number of years in business is a requirement as well. Reading real-to-life reviews from solar panel owners in Australia is helpful - simply scroll up to begin your research today.

What are the best energy installation companies?

Besides our top pick, Palmetto, several other companies ranked above the competition in providing solid solar equipment and installation services. They stand out in specific ways: Tesla for lower prices, and Momentum for its in-house installers. NRG Clean Power and Renu Energy Solutions also stood out as exceptional installers in more localized regions.
