How many kilowatts of solar panels can you install in Canberra?

These maximums are determined by the size of the inverter, not the total capacity of the solar panels, so households in Canberra can install solar panels with a total capacity greater than the size of their inverter if they wish. Ten kilowatts of solar panels covers a considerable amount of roof space.

Are solar panels a good investment in Canberra?

Yes, solar panels are a good investment in Canberra. With 4.8 sun hours per day, households can lower electricity bills and increase energy independence. Self-consumption is the key to savings, as feed-in tariffs (FiTs) are low (7-10c/kWh). Payback period: Typically 4 to 8 years, depending on system size and usage patterns.

Do I need council permission to install solar panels in Canberra?

Council permission will be required for installations over 10 kilowatts. These maximums are determined by the size of the inverter, not the total capacity of the solar panels, so households in Canberra can install solar panels with a total capacity greater than the size of their inverter if they wish.
