Trust Harris for reliable solar installations that benefit your home or business for years to come. Harris provides solar maintenance services in Maitland, NSW.

Why should you install solar panels in Maitland?

By putting up solar, you help to expand renewable energy sources while also reducing your carbon impact both now and in the future. So if you're located in Maitland, Newcastle, Hunter Solar Solutions have the technologies available to you if you have a solar solution or want to install solar panels.

How much does a solar battery cost in Maitland?

Solar battery costs in Maitland, NSW, vary depending on factors like battery capacity, brand, and installation complexity. On average, solar batteries can range from a few thousand dollars to tens of thousands of dollars. How Much will a 6.6kw Solar System save me?

How many kilowatts of solar can I install in Maitland?

In some areas network operators request that you contact them first, but that does not appear to be the case in Maitland. Maitland households can install up to 4.99 kilowatts of rooftop solar if they have single phase power. The maximum is determined by the size of the inverter and not the total capacity of the solar panels.

How do I switch to solar energy in Maitland?

If you want to make the switch to solar energy, please contact our Maitland solar installation team on 02 4925 7718 or fill in our contact form and a member of our team will be in touch with you shortly to discuss your requirements.
