Where are the best solar installations in South East Queensland?

That said, the Sunshine Coast has been identified as one of the most sun-drenched regions on the South East Coast of Queensland and its residents have taken to solar power installations with open arms. Here on the Sunshine Coast, SolarEze has been named one of the best solar installation companies in South East Queensland.

How many solar panels are installed in the Sunshine Coast?

A combination of soaring electricity prices and a desire to be part of the solar power revolution was all the inspiration needed. To date, more than 40,000 solar power systems have been installed in the Sunshine Coast area - more than 40% of all Sunshine Coast homes have solar panels installed.

Are solar power installations becoming more popular in Australia?

Solar power installations are becoming more popular in Australia as they are the cheapest form of renewable energy for homeowners. That said, the Sunshine Coast has been identified as one of the most sun-drenched regions on the South East Coast of Queensland and its residents have taken to solar power installations with open arms.

Should you invest in solar energy on the Sunshine Coast?

You may want to go green or cut your energy costs. The climate here on the Sunshine Coast is perfect for solar energy. However, investing in solar power requires various considerations: How many panels are necessary? What power level is optimal? What about cloudy days? Is a battery storage system crucial? And what's the expected payback period?

Is Queensland a good place to generate electricity with solar panels?

Much of Queensland is blessed with some of the world's finest sunshine resources. There is no greater example of this than the aptly-named Sunshine Coast region; a fantastic place to generate electricity with solar panels.
