How long does a solar power inverter last in the Philippines?

At Solaric, solar power inverters we've installed throughout the country resulted in drastic monthly electric bill drops, with homeowners noticing up to 50% reduction in their bills. If you purchase a solar power inverter in the Philippines, you can expect to recover from your investment within 6 to 7 years of use.

Where to buy solar inverter?

Solar inverter has been taking the world by storm! Don't miss out on the amazing solar inverter products in store for you. With the great quality of solar inverter at an affordable price, you're definitely in for a treat. Lucky for you, you can buy solar inverter on Shopee at a discounted price!

Why should you install a solar power inverter in the Philippines?

Another benefit of installing a solar power inverter in the Philippines is that you can stop worrying about sudden power interruptions. Solar power inverters will continuously generate energy during brownouts because they absorb sunlight throughout the day. This is where the concept of net metering comes into the picture.

Does Solaric sell SolarEdge inverters in the Philippines?

Solaric is an authorized distributor of SolarEdge inverters in the Philippines. We also help our clients carry out installation, site planning, and commissioning. We offer a full suite of SolarEdge inverters (single phase and 3 phase) that operate in the following grid types: regular 230V Single (split) phase, 400V Wye, and 230V Delta.
