Should you install solar panels in Lancaster PA?

For Lancaster, PA, residents, and businesses interested in raising your property value or getting rid of your variable electricity bill, solar panel installation may be the answer. As one of the earliest Lancaster solar companies, KC Green Energy has been helping people in the area with their solar installation needs for more than a decade.

Who are Lancaster solar services?

Whether you are a new homeowner who is cautious about the environment, or a business owner looking to save money on your energy output, our Lancaster solar services are the perfect solution for both. We are a solar company that sells, designs, installs, and helps to maintain solar panel systems for PA clients.

How much does solar cost in Lancaster PA?

The average price per watt of solar power in Lancaster, PA is \$2.86/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$2,003 for a 12.04 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Why should you choose a solar energy installer in Lancaster?

Finding a solar energy installer in Lancaster can provide you with many benefits. You may already know solar is a source of green energy, making it an environmentally friendly replacement for electricity. But did you know you can also earn money back on your new solar system?

Why should you install solar panels in PA?

Thanks to state and federal incentives, solar panel installation in PA is a cost-saving measure for most businesses and homes. With a solar electric installation, you can break free from the ever-increasing costs of traditional fossil fuels and reduce your carbon footprint.
