

What is a Volta solar light pole?

The Volta is a solar light pole for outdoors that features the most advanced LED on the market, a CREE XPG-3 with a luminaire efficiency above 130 lumens per watt. The gel batteries provide reliable, long-lasting lifetime cycling. Our Volta models also have IP68 solar charge controllers for installation in harsh-weather environments.

How do I choose the best pole for LED solar powered lights?

Choosing the best pole for your LED solar powered lights can seem easy, but there is much more to it than you may think. There are so many options that it can feel overwhelming. Between steel, aluminum, concrete, anchor base, direct burial, etc., every material and style has its perfect fit for a solar project.

What are solar light poles & posts?

Solar Light poles and posts are an essential part of lighting infrastructure, and our commercial solar lighting systems provide an immediate solution for streets, highways, parking lots, perimeter security, and more. Solar Lighting International can engineer the right solution to mount our solar lighting systems in a variety of ways.

Can a solar lighting pole withstand the elements?

Anything that works outdoors must be able to withstand the elements in order to survive. Solar Lighting International provides the most popular solar lighting pole options in a variety of materials and shapes.

What are solar street light poles?

Alongside the evolution of modern transportation, solar street light poles will also serve as a platform to integrate other modular systems, such as IoT-based intelligent traffic management, city governance, etc. Solar street light poles are generally set up and fixed on sturdy reinforced concrete foundations like most street lights.

Does a solar pole weigh a light fixture?

For example, a solar pole handles not just the weight and EPA of a light fixture but a whole solar power assembly. So even a small system will need to compensate for the added weight and EPA of the unit.

Our PL23 solar pole top light offers 20W of LED power which is 2,600 lumens at full power. All components are built in to an attractive and easy to install light fixture that can be installed on to an existing light pole. Eliminating the need ...
