How much does solar cost in Madison WI?

The average price per watt of solar power in Madison, WI is \$3.06/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$21,186 for a 9.88 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Who is Midwest solar power?

Midwest Solar Power LLC was founded in 2009 and brought together their backgrounds in construction, project management, and customer service to modernize the solar installation business. Here at Midwest Solar Power we strive to be the premier local solar installer in Madison by doing honest, high quality work at a fair price.

How much does a 6 kW solar system cost in Madison?

A 6 kW solar system will cost about \$15,600 in Madison before incentives. After the 30% federal solar tax credit, this drops to \$10,920, or about \$1.82 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.

What solar incentives are available in Madison?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some cities, counties, states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Madison:
