

Are solar panels really free?

No, solar panels are not free. Advertisers claiming to offer free solar panels typically provide a solar lease or power purchase agreement (PPA). In these arrangements, a company installs solar panels on your house for no upfront cost and charges you a monthly rate for the power they generate.

How do I get free solar panels?

Use social media tools such as Facebook, Twitter, and Myspace to let people know that you're looking for free panels. You never know who people may know and it never hurts to ask. Contact government highway departments and road construction companies to see if they have any damaged solar panels that they're giving away.

What is a free solar panel offer?

A "free solar panel" offer doesn't mean you will get solar panels for free. Instead, this usually refers to an agreement that allows you to start using solar panels without incurring upfront costs. However, you will have to make payments in the future.

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.
