Who are the best solar panel installers in Las Vegas?

Here are a couple of highly rated local solar panel installers in Las Vegas. Sun Source Energy is a Las Vegas-based solar installer that offers consultations, solar financing assistance and maintenance and repairs. The company also takes care of the permitting process. Sun Source Energy has earned high marks and glowing reviews on Google.

Should you install solar panels in Las Vegas?

We recommend installing solar panels in Las Vegas since the city is in one of the sunniest regions of the U.S. This means that solar panels can generate large amounts of electricity, which can lead to significant power bill savings throughout the year.

How much energy does a solar system generate in Las Vegas?

If you install a 6 kW solar system on an unshaded rooftop in Las Vegas, you can expect to generate between 10,000 and 11,000 kWh of energy per year. Considering NV Energy charges 15.864 cents per kWh in southern Nevada, this amount of solar electricity could save you between \$1,586 and \$1,745 each year.

Are solar panels a good investment in Las Vegas?

This means that solar panels can generate large amounts of electricity, which can lead to significant power bill savings throughout the year. If you install a 6 kW solar system on an unshaded rooftop in Las Vegas, you can expect to generate between 10,000 and 11,000 kWh of energy per year.

Can solar power save you money in Las Vegas?

A typical home in Las Vegas spends about \$135 on monthly electricity bills. If your system offsets 80% of your power consumption, solar power could save you \$108 per month. Over your system's 25-year lifespan, those savings add up to a striking \$32,400.
